RETRACTABLE PERGOLAS & AWNINGS

Beyond Imagination

Welcome to String Lights Outdoor. We pride ourselves on our portfolio of services and expertise in the design, manufacturing and installation of shading systems. Whatever your needs, we are confident that String Lights Outdoor has the solution. Pergolas, Awnings and Motorised Blinds are our core ranges, co-ordinated from our office in the Texas - but covering the United States and North America.

Our business commenced trading in 2016 and has grown through nationwide sales and now works from dedicated overseas production facility. The brand String Lights Outdoor provides the design, technical know-how and administrative support to provide a high-quality customer-based service in the US and around the world.

Our retractable roof systems provide a stylish architectural covering which allows the outdoor areas to be used all year round in any weather condition.

We've got you covered...

We now can be seen in global markets. Since our origin is in the Republic of Turkey, we are now represented in four continents and 78 countries - as the increasingly discerning customers seek unrivalled shading solutions to complement infrastructure and facility design.

Bioclimatic Pergola B-Cube

Classic

Urban

A work of wonders, the Bioclimatic Pergola series is one of our most contemporary installations. The B-Cube series can create a bold statement in your outdoor space as well as be an incredibly flexible solution to extending your outreach with a variety of options to suit every individual project - whether standing tall by itself or attached to your property.

Ideal for: Hotels, bars and premium leisure industries along with detached and semi-detached private houses.

Max width: 11,950 mm | **Max projection:** 7080 mm

Pavilions & Gazebos

Adorned with beautiful fabrics to work as curtains and solid teak wood decking or stoneware as optional flooring finishes - our pavilions allow you to create the most perfect outdoor room you could ever imagine. These versatile outdoor rooms are highly customisable and are available in 9 different colours in the form of painted aluminium to frame the room.

Complementary features of this wonderful pavilion includes overhead curtains, perimeter curtains in acrylic fabric, glass walls, perimeter panels all highly customisable and optional to suit your preferences and the project needs.

Ideal for: Commercial and Domestic use.

There are three sizes:

3745 mm x 3745 mm

3740 mm X 4950 mm

4950 mm x 4950 mm

Max height: 2480 mm

Complementary Features

Flooring / Platform

Overhead Curtain for Shade

Perimeter Panels

Glass Walls

Perimeter Curtains in Acrylic

Perimeter Curtains in Woven Polypropylene

Pergola Subulate Minima

Subulate Minima is a bespoke design model, hangs easily from walls and requires no ground support, so it's ideal for covering those tight areas.

This is a flexible, retractable system which has the option to be free-standing as well as wall-mounted. A pergola which is suitable for everyday budgets.

Ideal for: Commercial and Domestic use.

Max width: 13,500 mm | **Max projection:** 7000 mm

At String Lights Outdoor we pride ourselves on the unique quality of our products which can transform your project into something extraordinary. It is not only quality that matters to us.

We aim to deliver complete and total satisfaction. From your first contact with our friendly sales team you will be provided with all the information you need whether you know exactly what you want or wish to see a complete range of options. From then on, we can guide a specifically tailored project from concept stages through to installation if required.

Helping You Choose

Fabrics by **Serge Ferrari**

We utilise only the best materials for fabrics and membranes. These are sourced by our partner, which has supplied flexible composite membranes for some 80% of all temporary structures for the London 2012 Olympics; and has developed a know-how that is frequently being called upon for technically demanding projects that combine architectural challenges and difficult climatic conditions.

Electronics by **somfy** Building happiness

Somfy is the world leader in the automatic control of openings and closures in homes and buildings, and puts automatic control at the heart of the transformation of people's living environments. The solutions it offers to improve comfort, security and energy efficiency can be seen today in many commercial premises, retail, residential applications - and public spaces, and are constantly finding new applications in our daily lives.
