SUN STORE MOTORISED BLINDS

The motorised blinds that we refer to are those that fit well and fulfil the aspirations of the pergola structures that StringOutdoor Shading Systems has installed. They can be vertical and horizontal and traditional shading through to the modern, innovative and stylish guillotine format.

Vertical motorised blinds add an aesthetically pleasing finish to a home's or venue's style. Selection can be either contemporary or traditional. Somfy 'one-click' technology facilitates ease of use and user-friendly automation. Why bother? This added with the correct fabric choice enables moderation of natural light, helps reduce glare and gives that additional privacy, as required.

Max width: 4000 mm
Max projection: 3000 mm

12 sqm Maximum Coverage on a Single System

Available Options

Wind and Sun Sensor
